1 PROCEEDINGS 2 3 (6:35 p.m.)4 Sitting Members: Catherine Preston Connolly, Louis J. 5 Bacci, Jr., Steven A. Cohen, H Theodore Cohen, Hugh Russell, Tom Sieniewicz, and 6 7 Ashley Tan 8 CATHERINE PRESTON CONNOLLY: All right. Good 9 evening, and welcome to the June 13, 2023 meeting of the 10 Cambridge Planning Board. My name is Catherine Preston 11 Connolly, and I am the Vice Chair acting as Chair this 12 evening. 13 Pursuant to Chapter 2 of the Acts of 2023 adopted 14 by the Massachusetts General Court and Approved by the 15 Governor, the City is authorized to use remote participation at meetings of the Cambridge Planning Board. 16 17 All Board members, applicants, and members of the 18 public will state their name before speaking. All votes will be taken by roll call. 19 20 Members of the public will be kept on mute until 21 it is time for public comment, and I will give instructions 22 for public comment at that time. You can also find

```
instructions on the City's webpage for remote Planning Board
1
 2
    meetings.
 3
               This meeting is being video and audio recorded and
 4
     is being streamed live on the City of Cambridge online
5
    meeting portal and on cable television Channel 22, within
 6
     Cambridge. There will also be a transcript of the
7
    proceedings.
               I will start by asking Staff to take Board member
 9
     attendance and verify that all members are audible.
                                                           Louis
    Bacci, are you present, and is the meeting audible to you?
10
11
               LOUIS J. BACCI, JR.: Present, and audible.
12
               DANIEL MESSPLAY: H Theodore Cohen, are you
13
    present, and is the meeting audible to you?
14
               H THEODORE COHEN: Present, visible, audible.
15
               DANIEL MESSPLAY: Steven Cohen, are you present,
    and is the meeting audible to you?
16
17
               STEVEN A. COHEN: Present, visible, audible.
18
               DANIEL MESSPLAY: Tom Sieniewicz, are you present,
19
    and is the meeting audible to you?
20
               TOM SIENIEWICZ: Present, visible, and audible.
21
               DANIEL MESSPLAY:
                                  Hugh Russell, are you present,
22
    and is the meeting audible to you?
```

```
HUGH RUSSELL: Present, visible, and audible.
1
 2
               DANIEL MESSPLAY: Thanks, Tom. Ashley Tan, are
 3
     you present, and is the meeting audible to you?
               ASHLEY TAN: Present, visible, and audible.
 4
5
               DANIEL MESSPLAY: Catherine Preston Connolly, are
    you present, and is the meeting audible to you?
 6
 7
               CATHERINE PRESTON CONNOLLY: Present, visible, and
8
    audible.
9
               DANIEL MESSPLAY: And Mary Flynn, are you present,
    and is the meeting visible and audible to you?
10
11
               [Pause]
12
               DANIEL MESSPLAY: Absent. So that is seven
13
    members present with one member absent, which constitutes a
14
    quorum.
15
               CATHERINE PRESTON CONNOLLY: Thank you so much.
16
17
     (6:37 p.m.)
18
     Sitting Members: Catherine Preston Connolly, Louis J.
19
                       Bacci, Jr., Steven A. Cohen, H Theodore
20
                       Cohen, Hugh Russell, Tom Sieniewicz, and
21
                       Ashley Tan
22
              CATHERINE PRESTON CONNOLLY: All right then.
```

first item as usual is an Update from the Community

Development Department. Please introduce Staff present at
the meeting and begin.

DANIEL MESSPLAY: Thank you, Catherine. My name is Daniel Messplay. I'm the acting Director in the Zoning and Development Division. And with me here this evening, also from the Zoning and Development Division we have Swaathi Joseph, Evan Spetrini, and Adithi Moogoor.

We have a few more folks from the Community

Development Department with us here this evening, so we are

also joined by Iram Farooq, our Assistant City Manager for

Community Development and Khalil Mogassabi, our Deputy

Director, and Chief Planner at CDD.

And from the Economic Opportunity and Development Division, we have Christina DeLisio present. And I believe we will be joined in progress by Adam Shulman from Traffic, Parking and Transportation and Megan Bayer from the City Solicitor's Office.

So tonight, we will have a public hearing on a rear-yard infill project at 55 Washburn Avenue, and we will also have a public hearing on a zoning amendment to remove the Special Permit requirement for cannabis retail stores.

That zoning amendment will also be heard at the Ordinance Committee on June 27.

Next week, we have two zoning petition hearings.

One is on the new Alewife Quadrangle Zoning, and the other is the Ferguson et al. Zoning Petition, which is a Citizens Petition dealing with calculating formula setbacks a bit differently than they are calculated now.

And then to round out the month, we'll have our Annual Utility Report on June 27.

That takes us into July, and as a reminder, the first Tuesday of the month is the July 4th holiday, so we will not have a meeting that first week in July.

Real quickly in terms of Council Ordinance

Committee updates, so last night the City Council referred

amendments to the Affordable Housing Overlay as a zoning

petition to the Planning Board and the Ordinance Committee.

So that will be coming to a Planning Board meeting near you

in the soon-to-be future.

The Council also adopted an amended version of the Craig Kelley, et al. Zoning Petition. This was the Citizens Petition that dealt with peer-to-peer car sharing and branching out privately owned, publicly accessible electric

```
vehicle charging systems, for which the Planning Board
1
 2
     forwarded a report with no positive or negative
 3
     recommendation.
               And then lastly, a bit of an older update, but the
 4
    Ordinance Committee held its hearing on the Franklin, et al.
5
 6
    Citizens Zoning Petition. This was a Zoning Petition that
7
    the Planning Board forwarded a negative recommendation on.
    And that petition, there was a vote to keep it in Committee
     for now.
9
10
               So that concludes the presentation. And I'll turn
11
     it back to the Chair.
12
               CATHERINE PRESTON CONNOLLY: Okay. Thank you very
13
    much, Daniel.
14
15
     (6:40 p.m.)
16
     Sitting Members: Catherine Preston Connolly, Louis J.
17
                       Bacci, Jr., Steven A. Cohen, H Theodore
18
                       Cohen, Hugh Russell, Tom Sieniewicz, and
19
                       Ashley Tan
20
               So the next item on the agenda is a public hearing
     on case PB-398, a special permit application by Antje
21
22
    Danielson, to construct a second principal dwelling in the
```

rear yard of 55 Washburn Avenue. 1 2 We'll begin with an Update from CDD Staff, then a 3 presentation from the applicant followed by public comment, after which the Board will discuss the application. 5 Before we begin, we need to note for the record that there are --6 7 DANIEL MESSPLAY: Oh, Catherine, I apologize. 8 CATHERINE PRESTON CONNOLLY: Yeah, I was going to 9 say, I think we actually ended up with seven, didn't we? 10 DANIEL MESSPLAY: We did end up with seven. 11 had a pleasant surprise from Steve. So you can --12 CATHERINE PRESTON CONNOLLY: Okay. So we can skip that, and I can just turn it over to CDD Staff to summarize. 13 14 EVAN SPETRINI: Thank you, Chair. This is a new 15 special permit application that involves the construction of a second dwelling in the rear yard in a Residence B 16 17 District. 18 The zoning requires that a special permit be 19 obtained through the Planning Board when any portion of the 20 rear dwelling is farther than 75 feet from the street line. Staff from Zoning, Urban Design and Public Works 21

have provided written memos to the Board outlining the main

22

elements of the proposal, and members from Z and D and Urban

Design are present to answer any questions the Board may

have. And I will turn it back to you.

CATHERINE PRESTON CONNOLLY: All right. Thank you very much, Evan. So then I believe we'll hear from Sarah Rhatigan presenting on behalf of the applicant. You'll have 30 minutes to present, and we hope you can be as concise as possible.

SARAH RHATIGAN: Sarah Rhatigan, Trilogy Law. And for the record, 12 Marshall Street in Boston. And I'm here representing the petitioner, Antje Danielson, as well as her son and daughter-in-law, who are also on the call; Max Danielson and Gigi Chow.

Thank you very much for hearing us tonight. We will definitely try to keep our presentation as succinct as possible. This Planning Board knows of course well the provision that we're applying under with a pretty straightforward set of standards, I think, for this sort of infill development.

And I hope the Board is as pleased as we are with the work that this owner has done to try to propose a really, really wonderful, modest project that will allow for

essentially intergenerational living situation for the Danielson family.

Just to start, I've known these folks for a long

-- for quite a few years. I first met Antje Danielson when
she was putting together a curb cut application that allowed
for a small front yard parking space for a small car at the
side of the main structure that she worked in.

And I fondly remember when we first talked, we were actually sitting on our second floor looking out in the back yard. And she said, "My real plan -- I'm going to tell you, it's a few years off, but I really want to find and way to provide a second home in the back" for her family.

And I was quite surprised when she called me many years later and said that this was actually going to happen, or hopefully happen.

So Antje, can I turn it over to you to just provide a brief -- I wanted you to introduce yourself to the Board. And then we'll get going through the slides and make this efficient.

ANTJE DANIELSON: Thank you, Sarah. And good evening to all the Board members and everyone who's participating. My name is Antje Danielson. I, as you know,

live on 55 Washburn Avenue on the second and third floor of 1 2 the existing dwelling. I have been a resident in Cambridge since 1990, 3 1991, and in 1999 my ex-husband and I bought this property 4 5 at 55 Washburn Avenue. And I raised both of my children --Max Danielsson and Willem Parman -- in this existing house. 6 7 And I currently work at MIT at the Energy 8 Initiative, where we do everything that we can to mitigate 9 the climate crisis. And so, I have a very specific view on what needs to be done in buildings and transportation and so 10 11 forth to deal with this very big question. 12 I'm also here joined by my oldest son, Maxwell Danielsson, and my daughter-in-law Gigi Chow, who just had a 13 14 baby just short of a year ago, and we're very excited about 15 the possibility of them moving into this new house that we were planning. 16 17 And with this, I'm turning it over to Max and Gigi 18 so they can introduce themselves as well. 19 MAXWELL DANIELSSON: Perfect. My name is Maxwell

MAXWELL DANIELSSON: And a little introduction to

GIGI CHAU: I'm Gigi Chow, I'm Max's wife.

20

21

Danielson.

us: Like my mom said, we're Cambridge born and raised. We left the area to go to college, but then moved back to the area after graduating, and we both currently work at Dana-Farber Cancer Institute in Boston.

We currently reside at 55 Washburn as well in the first-floor unit, where we rent it with our 10-month-old that my mother alluded to.

Very briefly, I can summarize the goals of our project. Obviously building a home for our family is top of mind, but as part of that, we will be extremely close to my mother -- not only my mother, but Gigi's parents, who live over in Alewife, which is a five-, ten-minute walk away. So that's fantastic as well.

Other goals include limiting as much disturbance to our neighbors as possible, as well as limiting as much impact on the existing lot as possible. So to that goal, we have planned to go with a modular construction for the house, so that the house can be built in a factory offsite, and then brought to the site and placed in a process that only takes about a day, if that, with the goal of reducing as much onsite work and any noise that that might entail to our neighbors.

In terms of siting of the lot, we will receive the details later, but we've placed the home as far away from the existing large tree on the lot, as well as -- with the goal of not disturbing that tree, not doing anything to that tree, and then also positioning it so that we can preserve as much open green space in the oddly shaped lot in the rear. Not only green space on our lot, but the open space across our fences into our neighbors' yards as well.

And we're excited to get into the details, and it's lovely to meet al of you. Back to you, Sarah.

SARAH RHATIGAN: Thanks. Next slide, please?

Thank you. So this is just obviously the Assessor map.

We're in North Cambridge -- just siting you into the

location -- Washburn Ave is a one-way Street that begins in

Somerville and then crosses into Cambridge and ends at Mass

Ave.

Next slide, please?

This is a Google Map view that just gives you an aerial view of -- which our lot is traced in red -- gives you a view of our--quote, unquote-- "lamb chopped lot" with the existing -- the existing Victorian home at the front, where Antje lives.

And in the back yard, you can see there's little structure to the left. That's a shed. And there's a little deck next to the shed. But it's a big, large open yard that's -- you know, the siting of the house is designed so as to:

1) Conform to zoning, so it does require an ample rear yard, because the lot is extra deep. So we've got some calculation of extra rear yard there. It's about 35' from the rear yard. It's in line with the existing home on the right side but conforming to Zoning. So seven-and-a-half feet from the lot line.

And then as Max mentioned, trying to preserve as much of the open space and the tree, so that's enjoyed by not only them but also by their neighbors.

And next slide, please?

We're providing some context pictures you can see in the middle we've numbered the houses that are the direct abutters. And you can just get a view of what the structures look like.

I did want to just point out if you look at the number 5 of photos, this is the house that's immediately to the right. So that house lot is arguably the most impacted

by a development back here. 1 2 The front house, which is visible -- you know, 3 just to the right of the central picture, you can see is essentially inline with the existing Victorian home. 4 5 And then it has an ample rear yard. And then the second structure, the number 5 with 6 7 the little asterisk on it, there's a rear -- essentially a 8 garage, garage shed, is that accurate, Max and Antje? Yep. 9 But nobody -- no living back there and no windows or anything. 10 11 So the siting of the home closer to that number 5 12 owner should be as low impact as possible. 13 Next slide, please? Just some more context photos. So the home is the 14 yellow with gray multicolored home at the front. And just 15 giving you some views from the street. 16 17 Next slide, please? 18 Here are some photos from the back of the existing 19 home looking into the yard, just so you can see how deep and 20 open that space is. And next slide, please? 21

And here are some photos looking back from the

22

back yard looking at the existing home, and now from the back the home is all yellow. And you can see -- I just want to point out there's sort of a set of stairs that go from a second-floor deck down to the grade, that switchback.

Part of the design challenge for us was siting the home so that it was complying to all the setbacks, including the round and reactive setback, and providing enough distance between the buildings -- the new structure and the existing.

And what we found is that the stair -- the sort of double back stairs was sort of intruding into the space between the homes. And in fact, the homeowner Antje had originally gotten plans drawn by an architect to modify this, so that it would have a single -- well, not a single stair, but it would have a -- a direct line of stairs down to the grade. And we'll show you there are plans in the plan set.

But part of the work will require that they essentially remove the switchback in the stairs to create a more efficient and code-compliant access from that second-floor deck and to provide more space between those buildings.

1 Next slide, please?

These are some additional views. The one that I would point out to you: The bottom center picture is taken from -- you can see where the arrow is showing. But this is taken from this space right in front of the bike shed, and sort of looking at the area where the infill home will be placed.

Next slide, please?

Here is a rendering of what the new home would look like in white. And you can see it's two-and-a-half stories. And then at the top level there's like a little inset balcony, open balcony.

Next slide, please?

Here is a view from the front street. And you can see the white -- the image of the -- the rendering of the white structure right behind. Next image, please? And here's just closer. And this would be if you walked into the neighbors' lot and took a -- you know, a real closer look at what this might look like.

Next slide, please?

Here's even closer. Here you would for sure be trespassing on the neighbor's lot, but this is what it would

```
look like from there, from the middle of their driveway.
1
2
               Next slide, please?
               We just have some -- some simple plans from the
 3
 4
    modular home company.
5
               Next slide?
               These are elevations.
 6
7
               Next slide, please?
8
               And a crosscut of what the home will look like on
9
     the inside. The total square footage --
               Next slide, please?
10
11
               -- the total square footage is just under 1700
12
     square feet, and really designed to be exactly what Max and
13
     Gigi need, but not -- you know, really trying to minimize
14
     the footprint.
15
               So it's a 32 x 22 rectangle, with only minimal
    porch -- not really big, you know, no decks, no big decks
16
17
    but -- you know, landings and stairs down to the grade
    because the real -- the real objective here is for them to
18
19
    maintain as much of a big open yard as they can.
20
               Next slide, please?
21
               This is just a sheet cut on the materials, as
22
    provided by the manufacturer.
```

1 Next slide? 2 This is the drawing showing the change to the 3 stair egress on the main house that I mentioned earlier. Next slide, please? 5 This is the existing landscape. And you can see 6 the large canopy tree that we've referred to that we're 7 preserving by siting the house where it is located. And then there's a lot of nice perimeter plantings that we can 9 provide some more detail on, those all exist. 10 The existing driveway and side walkway are all 11 permeable currently, and they will remain permeable surfaces 12 with the new project. 13 Next slide, please? 14 The changes that are proposed: Obviously the 15 dwelling itself adds permeable surface to the lot. But that really is the -- the sites for that and the siting of some 16 17 AC units at the rear of the structure, that's the only 18 permeable surface proposed.

There are new pavers. I'm sorry,

Next slide, please?

19

20

21

22

Here's where we highlight the new elements. So the new pavers will be permeable, and then the plantings

```
that are proposed are for screening and for privacy.
1
 2
               You can see some small trees on the border with
 3
     the neighbor, and then a proposed fruit tree at the rear of
     the house that would provide, you know, a nice visible
 4
    barrier and greenery for the neighbors at the rear.
5
 6
               Max, was there anything that you wanted to add to
7
     -- I think I had said I would turn this to you here?
 8
               MAXWELL DANIELSON: No, no. I think you touched
    on it all.
9
10
               SARAH RHATIGAN: Is that okay?
11
               MAXWELL DANIELSON: Yep.
12
               SARAH RHATIGAN: Okay, great. Thanks.
               Next slide, please?
13
14
               Here's where Max, I could use your help, because
15
    you provided this --
16
               MAXWELL DANIELSSON: Yeah.
17
               SARAH RHATIGAN: -- information.
18
               MAXWELL DANIELSSON: Absolutely. So here we had a
    conversation with DPW because of -- based on the Flood
19
20
     Tracker that's on the City website, there is a mild flood
21
    risk for the site, or at least the left-hand side of the
22
    site.
```

But with the DPW's input, we have added language to our narrative that describes that we are building above the 2070 10 percent precipitation level, but that we are below the one percent precipitation level, but that we have mitigation strategies in place to recover from a 1 percent precipitation event.

So things -- super briefly -- raising any storage or utilities in the basement several inches off the ground in case of flooding, and then any materials used such as flooring or siding would be either water-resistant or easily replaceable in case of water damage.

But that was all with heavy guidance from DPW. SARAH RHATIGAN: Thank you.

Next slide? Thanks. We mentioned the shed. So this is where the bike storage will be located. The shed really could take quite a lot of bikes. What we tried to show was four bikes, because I think that's sort of the technical requirement of what the City was looking for.

And you can see the shed's really nice and clean.

I don't know, guys, are you going to keep it that clean?

But seriously, this is -- will be ample room here for, you know, bikes for the whole family.

Next slide, please?

And it's a locked shed. I just provided the survey again, just for reference.

Next slide, please?

This is the proposed survey. So here I just wanted to point out one comment. We were reading the Staff memo from CDD, and they had mentioned something about hoping that the applicant would consider access to the rear yard, having--quote, unquote-- I think "a sense of place" was what was referred to, and suggested the possibility of looking into removing a side porch on the existing home to sort of widen the path that goes to the rear.

So if you look on this survey, you can see where there's a little red arrow. There's an existing side porch, exit porch here from the main home. And we are absolutely willing to look at that.

We do have to look at feasibility because, you know, it is an access route, and it may not be possible.

But if it is, we're certainly willing to, you know, take a look at that and we can talk to CDD about any changes as we would, you know, always do so during the next stage of the process.

Next slide, please?

This I think is it. This is the -- just the front of the home and I'm just going to just summarize a few aspects of this that I want to make sure to point out in terms of meeting the special permit standard. In terms of the, you know, 5.53 specific special permit requirements, we're doing, I believe, quite a good job of meeting those requirements.

So the first element that we proved, that the development in the form of two or more structures on the lot will not significantly increase or may reduce the impact of new construction.

In terms of what we're doing here, the separate structures really break up the massing on the lot.

The only other option that could be conceived of for a project that would allow for an increase in square footage would be a long addition off the back of the home.

Because if you remember the shape of our lot, there's absolutely no room to go out on the side. There's really no way to go up. I mean, you could dormer the building, but it's a lovely Victorian home with a beautiful gable roof and the owner really doesn't have any interest in

doing that.

So again, the only options for a single structure would be to build straight back, a very long building. And the detriment is both to the neighbors in terms of, like, a massing of the structure. It would be out of context for the neighborhood, because there really are no such long, deep structures. I know they do exist in some parts of the city, but not in this neighborhood.

And then you also lose the ability to have two separate structures where each of them maintain four walls of windows, all the air and light and, you know, the enjoyment of having that.

what the identifiable benefits are to having the two structures: I mentioned one, the open space. Also, the siting of the project when there's really no other place to put a building in the back, unless we were to move it to the left side of the lot, which both compromises open space and also results in a loss of a large canopy tree, which we're trying to avoid.

By siting the project where it is, we're maintaining the largest open space possible. So the project

ends up we still have an 67 percent open space, which is really pretty remarkable in the city.

The construction of the second dwelling won't impact patterns of development because the -- in terms of front yard development, because of course the front of this lot is fully developed. We're -- we believe that the two structures, as I mentioned, will enhance the living environment for the people there.

We're retaining the existing structure. I'm going through the elements here, sorry. We're retaining the existing structure, as we pointed out. There's no additional parking. It's also -- it's not required, obviously, but it was not intended or -- you know, planned, and we don't expect any impacts to the neighborhood.

They're -- Max and Gigi currently have one car.

They park on the street. They're moving to the back of the property, and then the new tenant in the small accessory apartment on the first floor is not expected to have a vehicle.

And in terms of, you know, General Special Permit criteria, we don't believe that there are any hazards or changes to the neighborhood or congestion or other type of

nuisance or other bad impacts that we're imposing on the neighbors.

And we are welcome to hear your questions and concerns. Thank you.

CATHERINE PRESTON CONNOLLY: Thank you. So as I noted, this is a public hearing. Any members of the public who wish to speak should now click the button that says, "Raise hand." If you're calling in by phone, you can raise your hand by pressing *9.

As of 5:00 p.m. yesterday, the Board had received no written communications on this case. Of course, written communications received after 5:00 p.m. yesterday will be entered into the record.

I'll now ask Staff to unmute speakers one at a time. You should begin by saying your name and address. Staff will confirm that we can hear you, and after that you'll have up to three minutes to speak before I ask you to wrap up.

DANIEL MESSPLAY: Thank you, Chair Connolly. It looks like we do have a couple hands up. So our first speaker is Matt Goldstein, followed by Monica Toft. So Matt, please begin by unmuting yourself and giving your name

1 and address.

MATT GOLDSTEIN: Hi. I'm Matt Goldstein. I live at 52 Clarendon Ave. We are the house number 3 in Sarah's slide of neighboring houses. So we will -- we will see this house every day.

I want to express our strong support for this project. Max and Gigi have been extremely considerate and thoughtful putting these plans together and we are quite happy to have Max and Gigi remain in Cambridge and as our neighbors and hope the Board will approve this project. Thank you.

DANIEL MESSPLAY: Thank you. The next speaker is Monica Toft, followed by Suzanne Shaw. Monica, please begin by unmuting yourself and giving your name and address.

MONICA TOFT: Good evening. My name is Monica

Toft, and I live at 63 Washburn Avenue. I am next to house

5, so I'm two doors down. I support this project very

strongly, not only with housing costs but land costs. This

is an opportunity for Cambridge natives, a young family with

one child -- we hope for more -- to have their own home, an

energy-efficient home, and a planned modern home.

As Cambridge natives, they were born and raised

here. And the impact of intergenerational living, which I would hope that the City of Cambridge would support, there's plenty of land here for this property for this home to be built, and I strongly support it. And I do hope that Max and Gigi have the opportunity to build a home.

Thank you.

DANIEL MESSPLAY: Thank you. The next speaker is Suzanne Shaw. Suzanne, please begin by unmuting yourself and giving your name and address.

SUZANNE SHAW: Hi. I'm Suzanne Shaw. I live at 46 Clarendon Avenue. I'm Number 2 on the map that Sarah provided. And I just want to speak in support of this project.

I have known Antje for 25-ish years and Max the same amount of time. And they are -- done everything in their power to make this a low-impact development on the neighborhood, and I think this is really good and true to sort of the values that we have in Cambridge about building small and affordable housing.

So I support this.

DANIEL MESSPLAY: Thank you. Chair Connolly, that concludes the speakers on the list, so I will turn it back

1 to you.

catherine preston connolly: All right. Thank you so much. We will now move from public comment to Board discussion. Of course, additional written comments can be submitted for the record.

Do Board members have any questions for the project team or Staff? Yep, we have some questions. All right. Hugh let's take questions.

HUGH RUSSELL: It's more a question of curiosity. It sounds like the modules there are going to be 11' wide and 32' long, one story tall. How do you get them back into the back yard?

MAXWELL DANIELSSON: I can speak to that. So there's two options. And we've had the modular company, Westchester Modular, that we're going with -- has a lot of experience with very tight lots. And so, they've reassured us that it is not a concern to them.

But the two strategies that they've suggested is to each module, as you suggested, is 11' wide and about 10' tall and there's going to be four boxes total. And those get trucked in, and either we're going to scoot them between the space of the existing house in house 5, so that's on the

right of the lot, and then place the crane, which actually sits the boxes on the foundation.

The crane will either sit in our neighbor's yard or sit on the street. So those are the two options, depending on how tight it's going to be. And then we'll move the boxes from the truck bringing them in onto the foundation from there. And it will be four boxes, then they're all zippered up, and you're done in less than 24-hour.

HUGH RUSSELL: Thank you.

CATHERINE PRESTON CONNOLLY: Okay. Ted?

H THEODORE COHEN: My questions are probably for Staff.

CATHERINE PRESTON CONNOLLY: Okay.

H THEODORE COHEN: One of the plans that we saw, on the next-door house the front of the house says, "City land." And I was just curious what that was.

And the other thing that was true is about in the Staff Report there's a reference that a BZA variance would be required. And I didn't see any reference at any other time to that, and wonder, you know, whether that was still the case? That was my questions.

```
1
               CATHERINE PRESTON CONNOLLY: Okay. Great.
                                                           Daniel
2
     or Evan, can you speak to those questions?
 3
               EVAN SPETRINI: I don't know the answer to the
 4
     first question regarding the City land. The BZA variance
    was -- that was a variance that the applicant has already
5
 6
     received. And I believe that was for the existing parking
7
     space, if I remember correctly. But that is something that
8
     they already have received.
9
               H THEODORE COHEN: Okay. Good.
10
               SARAH RHATIGAN: And Daniel, Madam Chairwoman --
              MS. DANIELSON: If you would like me to speak to
11
12
     the --
13
               SARAH RHATIGAN: That could --
14
               MS. DANIELSON: -- land?
15
               SARAH RHATIGAN: Madam Chair, I was actually going
16
     to say, Madam Chairwoman, I'd be happy to answer the
17
     question on the City land piece.
18
               GIGI CHAU: Sure.
               SARAH RHATIGAN: So this is a -- this was a little
19
20
    bit of a mystery for us as well when we were first doing the
21
     surveying work. If you don't mind, if you want to -- if you
22
    could bring us to the slide that shows the existing survey?
```

```
Yeah, I apologize. It's probably like most of the way
1
 2
     through the slide deck.
 3
               EVAN STELLMAN:
                              Yep.
                                       This one's perfect.
 4
               SARAH RHATIGAN: Okay.
                                                            Thank
          So from what we have been able to tell, what happened
 5
 6
     is -- so the area that this is actually owned by the City.
7
    And you could not tell it by looking. You see that our lot
    has a rounded corner on the front, right? You see there's
 9
     round -- you know, there's a --
10
               CATHERINE PRESTON CONNOLLY:
11
               SARAH RHATIGAN: -- rounded --
12
               H THEODORE COHEN: Yeah.
13
               SARAH RHATIGAN: -- area there? Yeah.
                                                       The whole
14
     area to the right of that, immediately to the right of that,
15
     and then back to there's a straight line in front of our
     neighbor's house, that is actually City land.
16
17
               Now, it's improved and used by the owner next
18
     door, but apparently what happened is there was a
    misalignment of the streets between Somerville and where it
19
20
     crosses over into Cambridge.
21
               And there used to -- actually, Antje, I'm sure
22
    you're going to tell the story better than I am. Do you
```

want to tell the historical story? The street used to continue straight to this point and then take a turn.

Antje, I remember you told me something about this.

ANTJE DANIELSON: And apparently, I don't know this, but the neighbors -- actually the old gentleman who used to live in the neighbors' house was the father of the current, current person who lives there. And he told me the story. He was born in our house. And then his father built the house next door.

And apparently what happened was that because of the misalignment, the cars coming down from Somerville -- it's quite a steep road -- the cars coming down from Somerville -- would plow into our house. And so, they changed the alignment of the sidewalk to make it straight, and planted a really large tree, which is in front of my neighbor's house, to prevent any cars from being able to hit our house.

So that's, that's the history to this. It's a little bit of a funny history.

But this rounded corner actually gave us a little bit of a headache, because we needed to calculate where from the front end of our lot the back setback would be. And we

took a very conservative approach to that.

SARAH RHATIGAN: Yes, we did.

CATHERINE PRESTON CONNOLLY: Okay. Thank you for that. Great. Any other questions for Board members? If not, we can move straight to Board discussion and comments on where we are -- where Board members would like to go with this application this evening.

Tom?

TOM SIENIEWICZ: In reviewing the materials tonight, I was struck at how this application seems to fulfill the ambitions of the City in so many ways. And then tonight, I learned some details about who's going to live there, and it's intergenerational living, which is also very future-oriented and a really wonderful addition to the community.

So this is the kind of special permit application that I believe this section of the Ordinance was designed to encourage and double check. I think the siting of the house is sensitive.

I was concerned about the use of module housing, wondering whether we should have a more custom-built design. But now I understand the reason for that, which also has to

```
do with good citizenship here and trying to lesson the
1
 2
     impact of construction noise and disruption in the
 3
     community. So I'm very much in favor of this. I don't see
     -- I don't have any particular objections at all to any of
 4
5
     the details. That's where I am.
               CATHERINE PRESTON CONNOLLY: Perfect. Thank you,
 6
7
     Tom.
           Ted?
               H THEODORE COHEN: Well, I second everything that
 9
     Tom said, and I think that, you know, this really fits
10
    perfectly under the Ordinance, promotes housing in the city.
11
     It's great that it's intergenerational, but not knowing that
12
     I didn't care about it, because I think otherwise it really
13
     is exactly what the Ordinance was meant to promote.
14
               It's a very large lot. It will still remain a
15
     large lot, even with the second unit. It's really in
     keeping with a lot of the other lots in this neighborhood,
16
17
    which has many, many very large back yards. And I can
18
     support it wholeheartedly.
               CATHERINE PRESTON CONNOLLY: All right.
19
20
     you, Ted.
21
               Lou?
22
               LOUIS J. BACCI, JR.: Yeah. I kind of fall along
```

with my colleagues. Great idea. Great reason for doing it.

I'd like to keep some Cambridge people in Cambridge. Well,

first I thought maybe there wasn't enough room between the

buildings, but I can see what you're trying to do. So not

the much of a problem. And I think your going easy on the

neighborhood will help you out.

I think it's a great project, and we need more of it.

CATHERINE PRESTON CONNOLLY: Perfect. Thank you,
Lou. Any other comments? I would just add in addition to
what my colleagues have already said, I think it's -- your
outreach to your neighbors, as evidenced by the number of
people you had show up this evening in support of the
project is really spectacular. It's hard to get anyone to
show up to support any project ever.

And it's really a testament to the relationships you have built with your neighbors and the seriousness with which you took the potential impact on them that they came this evening and were able to reassure the Board about all the things that we usually have to think about.

So I want to commend you for that and really thank the people who did take the time to come. It does -- it is

meaningful when people do that.

All right. If there are no other comments, I trust we are prepared to take action on this item, and let's see, we need to -- despite the fact that Ms. Rhatigan has gone through all of the findings for us, I will just briefly note that -- note findings here that we need to make for -- I've lost this. Hold on just a second, please.

Here it is. Okay. Apologies for the delay there.

And -- oh, there are my criteria. All right. So again, the findings we would need to make is that:

The development of two structures on the lot would not significantly impact -- increase the impact of the new construction, as compared to if the same amount of development were contained in one building or the development of two structures would provide identifiable benefits beyond that provided by construction in a single structure, considering the extent to which preservation of a large contiguous open space in the rear lot is achieved.

Incentives to locate buildings and parking in the front half of the lot for the prevailing development pattern in the neighborhood, providing an enhanced living environment for residents on the lot.

```
Incentives to retain existing structures,
1
 2
    particularly structures that are preferably preserved.
 3
               Opportunities to reduce visual impact of parking
     from the public street and adjacent lots, and opportunities
 4
5
     to reduce height and bulk of new construction deeper into
 6
     the lot or closer to structures on abutting lots.
 7
               And then of course the permit would also need to
8
    conform to the general Special Permit Criteria.
 9
               If the Board members are comfortable making those
     findings, is there a motion to grant the requested permits
10
11
    based on those findings and with the conditions as laid out
12
     in the memo from Community Development and the DPW.
13
               TOM SIENIEWICZ: So moved.
14
               STEVEN A. COHEN: Second.
15
               CATHERINE PRESTON CONNOLLY: And can I have a roll
     call vote?
16
17
               LOUIS J. BACCI, JR.: Roll call on that motion:
    Lou Bacci?
18
19
               LOUIS J. BACCI, JR.: Yes.
20
               DANIEL MESSPLAY: H Theodore Cohen?
               H THEODORE COHEN: Yes.
21
22
               DANIEL MESSPLAY: Steve Cohen?
```

```
1
               STEVEN A. COHEN: Yes.
 2
               DANIEL MESSPLAY: Tom Sieniewicz?
 3
               TOM SIENIEWICZ: Yes.
               DANIEL MESSPLAY: Hugh Russell?
 4
5
              HUGH RUSSELL: Yes.
 6
               DANIEL MESSPLAY: Ashley Tan?
7
              ASHLEY TAN: Yes.
              DANIEL MESSPLAY: And Catherine Preston Connolly?
              CATHERINE PRESTON CONNOLLY: Yes.
9
10
               [All vote YES]
11
               DANIEL MESSPLAY: That's all members voting in
    favor.
12
13
              CATHERINE PRESTON CONNOLLY: All right. Thank you
14
    very much. Appreciate your time.
15
              COLLECTIVE: Thank you.
16
              LOUIS J. BACCI, JR.: Good luck.
17
              CATHERINE PRESTON CONNOLLY: Great. All right.
18
19
    (7:21 p.m.)
20
    Sitting Members: Catherine Preston Connolly, Louis J.
21
                      Bacci, Jr., Steven A. Cohen, H Theodore
                       Cohen, Hugh Russell, Tom Sieniewicz, and
22
```

1 Ashley Tan 2 CATHERINE PRESTON CONNOLLY: Then we will move on 3 to the next item on the agenda, which is a public hearing on a zoning petition by the City Council to amend Articles 4 4 and 11 on the Cambridge Zoning Ordinance to remove the 5 6 special permit requirement for cannabis retail stores, 7 cannabis courier establishments and cannabis delivery operator establishments. And as usual, we'll have CDD Staff summarize why 9 this is before us. Then they will present the petition, 10 11 we'll take public comment, and then discuss the petition. 12 So Daniel, can I hand it over to you? DANIEL MESSPLAY: You may, Chair Connolly, and 13 14 just bear one moment with me while I share my screen here. 15 Just going to jump right into it. Okay. Is that -- has that come up for everybody? 16 17 COLLECTIVE: No. 18 DANIEL MESSPLAY: It has not. Okay. Try it one more time. How's that? 19 20 CATHERINE PRESTON CONNOLLY: There it is. DANIEL MESSPLAY: Fantastic. Okay. 21 Thank you,

Chair Connolly. Just a quick sort of housekeeping notes;

22

This is a new zoning petition by the City Council.

Earlier this year, the City Council adopted a policy order directing Staff to review the need for a special permitting process for cannabis dispensaries.

And Staff's recommendation back to the City

Council was that the special permit requirement for cannabis

retail uses be removed with the exception of cannabis

product manufacturer uses.

Before we get into the specific zoning changes, we can take just a quick trip down memory lane together. We are approaching 10-year anniversary of a regulatory framework within the city related to cannabis uses, believe it or not.

Beginning with the first medical marijuana dispensary ordinance in 2013, and then establishing citywide regulations for medical marijuana and cannabis establishments and up to the present day, when we have the first handful of retail cannabis establishment that have cleared permitting and are now officially open for business.

If there's been sort of one constant over the years, I think we can all agree that it's been that the regulatory framework continues to evolve and change, both as

new products and activities become legalized by the state, from medical only uses to recreational uses to home delivery.

I'm sure we could all draw a line off the right side of this little graphic here, and you might make predictions for other changes that will eventually come our way, such as on-site consumption. But that will be a conversation for another day.

The Planning Board is extremely familiar with the current zoning requirements for cannabis retail stores, but sometimes it is helpful to see how the permissiveness of cannabis retail is distributed across the city. So here's a map.

The purple areas on this map show where cannabis retail stores are currently permitted by special permit, which includes all business districts and most industrial districts.

As a reminder, cannabis production facilities, which are not featured on this map, and we have yet to see an application for are not -- and they are not part of this specific amendment -- are only permitted in Industry B-1 and B-2 Districts.

We can overlay point data on this map to illustrate where cannabis retail stores have been approved by the Planning Board and which ones are open for business. The Planning Board has approved 18 cannabis retail stores and another three are currently somewhere in the City/State approval process.

In many ways, looking at this map, cannabis retail stores have been distributed somewhat evenly across the city. There's a couple in the Alewife area, we've got some along our major corridors like Mass Ave, a few in Harvard Square and Central Square, and some in East Cambridge.

The four stores that are currently open, one is near Mount Auburn Cemetery, off there to the left. One is on Cambridge Street and two are in Central Square.

In analyzing approved cannabis retail stores, we looked at several issued special permit decisions to see what types of conditions are typical across all cannabis retail stores.

Unlike other types of retail, with cannabis there are different requirements that apply, depending on what type of applicant you are. If you're an Economic Empowerment applicant or Social Equity applicant.

Therefore, the approval of the cannabis retail store is limited to the entity or the applicant seeking approval.

If there are ownership changes after that approval, especially if it means that the majority ownership interests will disrupt that the Economic Empowerment or Social Equity Applicant designation, then an amendment would need to be sought to the approval.

Some of the approval conditions are typical of all types of special permits that we see; for instance that the construction be in conformance with the plans that were approved at the Planning Board, that additional follow-up design items go through continuing Design Review by Staff.

Much of the cannabis requirements relate to service functions at the building. So their requirements related to transportation and logistics planning, which are vetted and approved by the Traffic, Parking and Transportation Staff, as well as the Cambridge Police Department, before a business opens.

Before we discuss the changes proposed by the petition, we'll just do a quick refresher of the current zoning requirements and approval process for cannabis retail stores.

One thing to keep in mind is that the special permit is only one prong of a multiprong approval process. It's also the first step that is required in the approval process before the other approvals can proceed in earnest.

So an applicant receives a special permit. They then enter a host community agreement with the City. They obtain their state licenses, and then they proceed to building permit and construction.

I'm not the expert here. We do have Christina

DeLisio from Economic Opportunity and Development who can

speak I think much more eloquently to these other steps that

are involved and how they all interrelate.

But I wanted to just highlight for the Board that removal of the special permit doesn't mean removal of all requirements or Regulations related to cannabis retail uses.

We hear consistently from applicants that the special permit can add time and cost to what is often perceived to be a very time-intensive regulatory process.

From a policy perspective, the City needs to consider the between a process that puts the appropriate safeguards and checkpoints in place with what can also be an efficient and predictable and fair process for applicants.

The Cannabis Retail Use Regulations were established, obviously before any recreational business was actually opened in the city.

But now that several have gone through the process, it might be helpful to look back at what the spirit and intent of the special permit was at the time and ask if the framework we've established is the right one, or if there are opportunities for improvements.

And were some of the concerns about impacts that were present when the zoning was put in place and the special permit was put in place that ultimately fed into the requirements that applicants need to meet. Did those concerns come to fruition, or are they worth taking another look or thinking about other ways that certain concerns can be addressed in the process.

The zoning requirements that pertain specifically to cannabis retail stores include buffer requirements from other cannabis retail stores and buffers from schools and use recreation facilities.

The buffer from other retail stores doesn't apply to -- I'll say SEA and EEA as short form for Social Equity and Economic Empowerment applicants. And the buffer from

schools and Use Regulation Facilities can be reduced by Planning Board special permit.

There are requirements for the submittal of a transportation, logistics, and operations plan, which is reviewed by TP&T prior to a special permit. I believe we have Adam Shulman from TP&T here tonight who can speak a little more to how that process unfolds.

When the Planning Board approves a special permit, here are the findings that they need to make: So they need to find that the cannabis retail store is designed in such a way that it ensures safe access and egress, that building service functions are appropriately screened and secured, that efforts have been made to activate the storefront and enliven the public realm, and that programs are provided to assist qualifying medical marijuana patients.

So now we'll go through the actual changes in the proposed amendment. The first and most major change is that Table of Permitted Uses in Article 4.

So where cannabis retail store and cannabis delivery operator establishments were previously only permitted by Planning Board special permit, we've changed that to a yes, which indicates that they would be permitted

as-of-right, subject to the additional requirements in our Cannabis section of the Zoning Ordinance, which is Section 11.800.

In terms of changes to Article 11.800, so we've amended references to where, you know, these types of uses were only permitted by special permit, we've indicated that these uses are permitted as-of-right.

There was some language that existed before that prevented conversion of one type of cannabis use to another without a special permit. So where appropriate, we reference that that could be changed if it's permitted as-of-right to another use that's permitted as-of-right.

A lot of the existing requirements in this section remain, but the language has been amended such that the requirements become administratively reviewed as part of a building permit or a C of O application.

So for instance I mentioned, you know, the fact that the approval is limited to the entity. I mentioned the buffer requirements. These are items that Staff would review as part of a building permit application.

There is special permit language that remains in the Ordinance, because it would still be applicable to

cannabis production facilities, which are -- again -- only permitted in Industry B districts.

So to sort of circle back to the central thesis, I think what we would say is that this zoning amendment is less about changing Standards than it is about changing process. Many of the Standards will live on as administrative requirements, rather than being part of a Planning Board special permit if this amendment is enacted.

The overall goal for us, I think, is to in large part treat cannabis retail stores like other types of retail in the city.

The last sort of piece I'll note is that there is a special permit criterion related to the design of storefronts, which I talked about a couple slides back, and ensuring that applicants do everything possible with the State's regulations to enliven the public realm and make the storefront seem active and inviting.

And I think what I would say about that is, you know, our observations from going through many of these permits is that applicants generally want the same thing, as they are business owners. They want attractive storefronts that invite people in from the street.

We've seen a lot of techniques used to try to activate storefronts. Sometimes that involves changing the floor plan layouts to hide products from view from the street so they can maintain transparent storefront windows. Other times it might involve the incorporation of art of decorative lighting or other techniques to make focused welcoming.

We have a reasonable level of confidence that business owners will continue to pursue that goal. And again, if the goal is to treat retail cannabis like other types of retail, if you think about other types of retail that goes in just through a building permit, we don't have those same sort of design safeguards in place.

So that's sort of my -- I guess my concluding thought. With that, Chair Connolly, I think we're ready to maybe pass it back to you for the next part of this. So thank you very much.

CATHERINE PRESTON CONNOLLY: All right, thank you. So as previously noted, this is a public hearing. So we will now go to public comment. And any members of the public who wish to speak should now click the button that says, "Raise hand." And again, if you're calling in by

phone, you can raise your hand by pressing *9.

And as of 5:00 p.m. yesterday, the Board had received no written communications on this case. And written communications received after 5:00 p.m. yesterday will be entered into the record.

I'll now ask Staff will unmute speakers one at a time. You begin by saying your name and address, and Staff will confirm that we can hear you. After that, you'll have up to three minutes to speak before I ask you to wrap up.

DANIEL MESSPLAY: Look like our first speaker is Kim Napoli, followed by Amanda Grice. Kim, please begin by unmuting yourself and giving your name and address.

KIM NAPOLI: Sure. I believe I'm unmuted. Can you all hear me?

DANIEL MESSPLAY: Yes. Please go ahead.

KIM NAPOLI: Excellent. Thank you so much for your time. My name is Kim Napoli. My address is 9 Spruce Lane, Sudbury, Massachusetts.

In 2006, I opened up The Hempist, a hemp clothing store at 36 JFK Street in Harvard Square. I sold hemp clothing and hemp products at my store on the second floor in The Garage in 14 years. And the most complicated thing I

had to do there was park my car or figure out how to park my car while I was in the store.

Though we closed our doors at The Hempist in The Garage for the last time in 2020, I can confirm that the current process for licensing cannabis establishments in Cambridge and really at every level is just overcomplicated at every stage, from financing to local and state licenses, permits, operating in a market place that is anything but stable.

For applicants, operators, and regulators, we all have our hands full attempting to figure out how to put into practice all the rules we've created for ourselves. It creates a lot of confusion between the City Departments, between the State regulators, between applicants even, and it takes an excessive amount of time, which was previously noted.

And honestly, it nearly grinds the process of licensing to a halt, which ultimately contributes to to a failing regulated marketplace, because, quite frankly, it's just too complicated to get in and get open.

As well-intended as the Regulations may be with respect to Zoning, the overcomplicated licensing process is

in itself a barrier to entry, and it's a pretty significant one. Once the applicant has completed the local licensing process, they then have to go to the State, which at present is taking about a year or so, even with the benefits of being an Economic Empowerment or Social Equity.

So I would suggest that removing the requirement of special permit as proposed is a great way for the City to streamline the licensing process and to further normalize cannabis.

Thank you.

DANIEL MESSPLAY: Thank you. The next speaker is Amanda Grice. Please begin by unmuting yourself and giving your name and address.

AMANDA GRICE: Thank you. I'm Amanda Grice. I live at 36 Gold Star Road. I've been a Cambridge resident for my whole life. I am concerned about removing the special permit process as is in place. I think it was put in place for a reason, in part to protect some of our more vulnerable members of the community, like our children and those in school areas.

Overcomplication of a process and concerns about a process being complicated is not enough of a reason to

significantly modify the process in this way. Cannabis, as much as we want to treat it as such, is not like many other types of retail.

And so, especially when you're considering having locations and dispensaries in areas close to schools, I think that is concerning. And the special permit process should definitely stay in place. There's no lack of dispensaries in and around the city, to access is not a problem.

So I'd like to voice my strong opposition to modifying the process. Thank you.

DANIEL MESSPLAY: Thank you. Chair Connolly, that concludes the hands raised. So I will turn it back to you.

CATHERINE PRESTON CONNOLLY: All right. So then we can join more Board discussion and questions. And to the extent the Board has questions for Staff, whether it's CDD, Law Department or Transportation Staff, why don't we start with those, put any answers we need on the table earlier, rather than later, and then we can circle back to what kind of action we want to take tonight.

Ted, we'll start with you.

H THEODORE COHEN: Okay. I have a couple of

questions about the form of the Ordinance. So I'm making the assumption that the intent with Section 11.800 is to eliminate it and adopt a new Section 11.800.

With regard to the Section 4.3, as was noted on the screen, in a number of places the footnotes 5 and 8 became footnote 58, which is totally irrelevant. I see it was caught in some places, but not everywhere.

And going towards Section 11.802, Section 1.c and d are intended to be deleted. I'm curious whether Section C should be -- really should be deleted, and rather leaving it in and relating solely to special permits for cannabis production facilities, because they will continue to need a special permit.

The same question relates to Section 11.802.2, which again deletes the special permit requirement, but I'm wondering whether it shouldn't remain in in reference to the cannabis production facilities.

In Section 11.804, which is about parking and transportation, the Section A was deleted relating to offstreet parking. And again, I was wondering whether that should remain in for the construction -- I'm sorry, for the cannabis production facility.

There is also a typo in Section 804 with regard to the lettering of the subsections.

Those were really my questions for Staff.

CATHERINE PRESTON CONNOLLY: Okay.

H THEODORE COHEN: I will say, while I usually praise Staff all the time, it would have been nice to have gotten a redlined version of Section 11.800 so that we could see what the changes were made.

Anyway, those are my comments.

Ted. What we can do is collect any questions the Board has for Staff here, and then Staff can respond or let us know that they will work on a response separately, and then again, we'll come back and talk about what action the Board wants to take tonight.

Hugh?

HUGH RUSSELL: I guess I would note that this is one action that is sort of in a transition from total responsibility to the Board to have any responsibility for approving projects in Administrative Review.

I've done projects in other cities where there is no such thing as a Planning Board. It's all Staff Reviews.

I would note that one of the difficulties with Staff Reviews is that there are no time limits, and that the special permit process does have a time limit built into it that can be waved by mutual agreement [phonetic].

But -- and it's quite frustrating back in Maryland them taking months and months and months for seemingly simple actions just waiting for the Staff to get around to it.

I'm curious to know what happens to the existing businesses that have special permits, which most are not actually operating yet. But for example how -- what would happen if one of those businesses wanted to change from medical to recreational or joint?

And then if their some significant design modifications that were being made, how would that play out?

I wouldn't think we want to be giving amendments to those special permits. It seems to me the regulations should become the Staff review.

And I would note the 300-foot requirement is a little vague in the Ordinance, as to whether it is a -- from where the two ends are measured in along what routes. And to the extent that it stayed in for the Staff to do, I think

it needs to be clarified.

I would think it might be from the, you know, the front door of the educational facility or children's facility to the front door of the cannabis facility, in going along the public way might be a way to define which 300 feet you're talking about.

So I guess as I might have implied, I'm quite happy that this is going forward, and it seems appropriate to me.

CATHERINE PRESTON CONNOLLY: Okay. Thanks, Hugh. Lou, questions?

LOUIS J. BACCI, JR.: Yeah. I just had a quick one on change of use or how this would affect it, if at all.

CATHERINE PRESTON CONNOLLY: Okay. Another good one. I think that is the big question for this Board and kind of I would say regardless of what action we take tonight, I would recommend that this Board ask for guidance from the Law Department on how existing special permits might be treated in the future; how any new ordinance would apply to those permits or changes of use associated with them. And we can -- that can be either part of a recommendation or separate from -- I think that's -- yeah.

Megan, I -- not to put you on the spot, I'm guessing you don't have an answer for us on that tonight, but if you have any kind of leaning as to where -- what we might expect, that would be helpful.

MEGAN BAYER: Absolutely. So I do have some answers I can provide. There might be some, you know, more nuanced questions where we'd have to go back and look into it and give you a further opinion.

But the basic overview of what would happen with existing special permits is that if there's a retail cannabis business that's received a special permit, they -- and then the special permit requirement is removed from the Zoning Ordinance through this amendment, the existing business can either operate pursuant to that special permit that was previously granted by the Board, or if they comply with all of the conditions of the Ordinance, they can operate as an as-of-right use.

They would -- if it's a use that's already received a building permit and a Certificate of Occupancy, it wouldn't have to do anything. The Certificate of Occupancy doesn't reflect that it's issued pursuant to a building special permit.

So they would be able to just continue operating pursuant to their special permit, or if they wanted to make some sort of change that would be in compliance with the Ordinance, they could do that as-of-right, as long as they're complying with the Ordinance.

If they wanted to make some sort of change that wouldn't be as-of-right under the amended Ordinance, they couldn't come back to the Board to amend their special permit, because the Board no longer would have jurisdiction or the ability to issue a special permit.

So their options, then, would be either a variance from the BZA or to whatever change they wanted to make to do something that would be allowed under the Zoning Ordinance.

I think that covers the questions that came up, but I can try to answer any other specific questions if any of the Board members have any.

CATHERINE PRESTON CONNOLLY: I think that was a really good overview, and helpful for us to all understand and to this Board members covers most scenarios and anything that would, obviously, be specific to a site we'd want to handle in a site-specific kind of way, so we can save that.

Lou, did you have a follow-up on that?

1 LOUIS J. BACCI, JR.: Yeah. A quick one I wasn't clear on.

CATHERINE PRESTON CONNOLLY: Yeah.

LOUIS J. BACCI, JR.: So special permits are particular to a specific group or corporation or whatever. When this changes hands, how would that be affected? Would that be affected at all?

Because right now they only have a permit as -- if the permit goes away, I guess they go to the Building

Department. I don't understand where that goes, but I'm curious how that works out.

MEGAN BAYER: Correct. So the special permits, like you said, are granted to the particular applicant. And right now, while the special permit requirement is in the Ordinance, if that applicant wants to change or -- you know, change their form of ownership because that was -- that's something that's conditioned in all of the special permits, they would have to come back to the Board, and they could apply to amend their special permit to change the ownership.

If after, you know, if the Zoning Ordinance is amended, after it's amended, if cannabis company A wants to sell their business to cannabis company B, cannabis company

B will have to meet all the requirements of the Zoning
Ordinance to operate a cannabis business at that location.

If they don't meet the requirements of the Ordinance, they would have to get a variance. They couldn't come back to amend the special permit after the special permit requirement is removed from the ordinance.

So existing special permits would essentially become a preexisting, nonconforming special permit, and thereafter any business would have to comply with the requirements of the Zoning Ordinance or seek a variance.

CATHERINE PRESTON CONNOLLY: Great. Daniel, did you want to weigh in on this question?

DANIEL MESSPLAY: I actually -- my -- if Christina would potentially indulge us a little bit on some of those other prongs at the approval process.

I think Megan really hit the nail on the head, but this always gets a little squirrely when you've got, for instance, a Social Equity applicant or Economic Empowerment applicant that didn't have to meet, for instance the buffer with the 1,800 foot from another cannabis retail store, and then they sell the majority interest to a non-EEA/SEA applicant.

And there's other steps, I think, involved, beyond just the zoning.

So Christina, I don't know if you would be able to opine a bit on sort of what happens either related to the business permitting ordinance or with the host community agreements on entity and ownership changes.

CHRISTINA DILISIO: Yeah, I can speak to a little bit of that. So in the Cannabis Business Permitting

Ordinance, right now there is a priority permitting period, which means that there are four different kinds of applicants who are allowed to even be reviewed for a permit at all. And Daniel mentioned a couple of those different categories.

So one is called Economic Empowerment, one is called Social Equity. We have another category that is specific for a Cambridge Resident. And we also have a category for a Woman or Minority-Owned Business.

One of the sorts of tricky aspects is that in the Cannabis Business Ordinance, it is specifically mentioned that if you are able to Social Equity applicant, you have to also be a Cambridge resident. And Social Equity applicants are only listed as such for the zoning code. So we do

screen applicants early in the first stage. At this point it's almost kind of like a prestep, because it's specifically related to the priority period in the cannabis Business Permitting Ordinance.

And then after the special permit process, and after that prestep when an applicant gets to the stage where they're actually submitting what's called a, "Statement of Interest for a Host Community Agreement", the applicant is asked to provide a lengthy amount of information that speaks to their ownership, any licenses that they hold across the state, info about what kind of funds they have available to be able to do this business. It goes into quite a lot of detail.

So there are a few different stages where we collect this different kind of ownership information. I hope that helps speak to the question a little bit.

CATHERINE PRESTON CONNOLLY: It does. Thank you for that, Christina. I think the upshot -- and Christina or Daniel, correct me if I'm summarizing incorrectly here, but the upshot of this is that even without the requirement in the special permit that those kinds of things are addressed in -- you know, that applicants -- so let me stop for a

1 minute.

applicant who had come in under one of the criteria that allows them to waive certain special permit criteria, if the ownership were to change, that would be reviewed and discussed through the business licensing process, and presumably, if any changes were required as a result of that, it would be reflected in their host community agreement and those associated documents.

Is that correct?

DANIEL MESSPLAY: I think that's correct. And just to be clear, so when we talk about, for instance, the buffer --

CATHERINE PRESTON CONNOLLY: Yep.

DANIEL MESSPLAY: -- from another cannabis retail store, that's -- it's -- that's going to live on in the zoning. So it's still a zoning --

CATHERINE PRESTON CONNOLLY: right.

DANIEL MESSPLAY: -- requirement that would need to be met. And it just means that it would be administratively reviewed, rather than something that the Planning Board would weigh in on.

```
1
               CATHERINE PRESTON CONNOLLY: It -- precisely.
 2
               DANIEL MESSPLAY: Yep.
 3
               CATHERINE PRESTON CONNOLLY: Yes.
                                                  Okay.
                                                         I just
     wanted to kind of put a bow on the -- even though we're not
 4
5
     going to be involved in checking those changes of ownership
     and what they mean, there is another Cambridge agency that
 6
7
     ends up doing that. Great.
               DANIEL MESSPLAY: Right.
 9
               CATHERINE PRESTON CONNOLLY:
                                            Ted?
10
               H THEODORE COHEN: Well, not meaning to untie your
11
    bow, I just wanted to ask wasn't there litigation a couple
12
     of years ago about the rights of a preexisting licensee?
13
               I thought it was relating to distances, because
14
     then we granted a license to an Economic Empowerment, and
15
     there was a question about the distance between the two and
     what rights the preexisting licensee had.
16
17
               MEGAN BAYER: So I can take that question.
                                                           So
18
     there was litigation. It wasn't exactly the issue as you
     framed it, having to do with the distance. But the
19
20
     litigation involved a medical cannabis company Revolutionary
21
    Clinics.
22
              H THEODORE COHEN: Right.
```

MEGAN BAYER: And after the City Council enacted the Cannabis Business Permit Ordinance, which includes this preference period for certain types of applicants, the medical company Revolutionary Clinics challenged that ordinance because the state law that legalized cannabis sales gave a protection to medical establishments that were established before a certain date, that those establishments could not be prevented from turning into an Adult Use Sale establishment.

Basically, thinking if you've -- you know, gone through the process and invested resources into opening up a location in a certain location, you should be protected to continue in that location and switch to Adult Sales.

And the City's argument was that the permitting preference in the Cannabis Business Permitting Ordinance doesn't prevent the medical company from eventually switching to Adult Sales at that location, it just delays it while it's giving preference to certain applicants that the Legislature has said should be prioritized because they were harmed -- disproportionally harmed by the prior criminalization of cannabis.

And that case didn't end up coming to a final

```
judgment, so we don't know exactly how a court would rule on
1
 2
     that issue, because the Plaintiff Revolutionary Clinics
 3
     eventually dismissed the case and stopped pursuing their
 4
     challenge.
 5
               So there -- and they still are in operation right
    now as a medical provider that at the end of the preference
 6
7
    period, that corporation would be entitled to switch to
    Adult Sales if they so choose to.
 9
               H THEODORE COHEN: Thank you.
               CATHERINE PRESTON CONNOLLY: All right. Are there
10
11
     any other questions for Staff?
12
               Daniel?
13
               DANIEL MESSPLAY: I just wanted maybe quickly to
14
     address some of Ted's earlier questions. I think we sort of
15
16
               CATHERINE PRESTON CONNOLLY:
17
               DANIEL MESSPLAY: -- we got off on another
18
     tangent.
              And --
19
               CATHERINE PRESTON CONNOLLY: Oh, sorry.
20
               DANIEL MESSPLAY: No, it's okay. And I believe
    Hugh maybe had a couple questions or thoughts as well.
21
22
               CATHERINE PRESTON CONNOLLY: Yeah, good.
```

DANIEL MESSPLAY: -- as well. So Ted, I apologize for not getting you a redline. A redline definitely would have been useful here. But our intent, as you noted, was to amend Article 4 so the Table of Use Regulations, and then amend Article 11.800, so not do away with altogether, but there are certain provisions that we would remove or change certain clauses with references to the special permit.

We'll take a look at some of the specific sections you cited. I will say under 11.804a, the reference to offstreet parking, we struck that in light of the City's recent amendment to eliminate off-street parking citywide. So we didn't think that that would be applicable to cannabis production facilities any longer.

And as far as the footnote, so I believe the footnote is supposed to say "58." So I apologize if the formatting made that unclear. The existing Footnote 58 in the Table of Permitted Uses basically then redirects those uses to Section 11.800 for the additional requirements that pertain to cannabis uses. So that was the intent to leave the Footnote 58 in place and just change the PB that's present in the cell to "Yes."

H THEODORE COHEN: Well, I don't think that's

quite correct. And I would suggest, you know, when you have more time, you look at that. Because Footnotes 5 and 8 make sense. Footnote 58 I think relates to location of towers.

And I think you corrected it in the redline in many places.

I'd just -- take a look at that again. And I

suspected that the parking was eliminated in relationship to the City Council's action on parking. And I just wanted to check on that.

DANIEL MESSPLAY: Certainly. Thanks, Ted. Yeah. We'll definitely take a look there.

And then Hugh, I think you mention just about the buffers and how they're measured.

I'm not sure if Swaathi's able to weigh in on this specific question, or Megan, but I do think, you know, these are items that we have been reviewing, as part of special permit applications that do come before the Planning Board.

So it is something that Staff has been sort of reviewing consistently across special permit applications. So we do have a standard that we follow.

And as far as time limits related to Building

Permit Review, so just to sort of peel back the curtain as

to how we project that this would work if the zoning

amendment was put in place, so when an applicant files for a building permit with Inspectional Services -- depending on the details of that building permit application -- there are some departments that are automatically referred on that building permit for review and comment and approval before it can move forward.

It happens now if there's a building permit application that's related to a special permit, for instance, then the Community Development is automatically triggered for review and approval on that building permit application. So in a lot of ways, the Community Development Department is already kind of in that Building Permit Review and signoff process.

So I don't expect at this time that removing the special permit would adjust some of our internal workflows and timing around workflows for review and signoff.

I do understand that, you know, part of the administrative requirements get reviewed, you know, sort of prior to a special permit premiering before the Planning Board, but I imagine that, you know, we would still be able to review those requirements administratively in a somewhat timely manner.

And, Megan, I see your hand up, so I'm not sure if you wanted to weigh in on any of that.

MEGAN BAYER: I was just going to add that the State Regulations, the State's Cannabis Control Regulations have a provision that address how to measure the buffer. Because you may recall that the State also has a buffer requirement that I think is 500 feet. And then the City went further with 300 feet.

But my understanding is that when Inspectional
Services is asked to look at how to measure the buffer, that
they have referred to the State Regulations for some
guidance and how they should interpret measuring the City
buffer. And I think we would want to continue to be
consistent, so that the way the City measures it is
consistent with how the State Regulations would measure it.

CATHERINE PRESTON CONNOLLY: Great. Ted?

H THEODORE COHEN: Yeah. I wanted to say to Daniel, you were correct. I misspoke without looking at my notes again that indeed it should be Footnote 58 and not Footnotes 5 and 8. I apologize; I'm sorry.

DANIEL MESSPLAY: No, thank you. We always appreciate your careful eye on zoning, Ted. So you made me

jump a little bit, but --

H THEODORE COHEN: Yeah, sorry about that. I think when I saw you jump, I figured I better look at it again.

CATHERINE PRESTON CONNOLLY: Well, it is always worth double checking, and so, thank you for that, Ted.

And thank you, Megan, for speaking to how those buffer zones would continue to be implemented at the City level.

All right. I'm seeing no more questions for Staff. So we can discuss how we want to act tonight. I will take the prerogative of the Acting Chair here to say I am wholeheartedly in favor of this.

We recommended to the City Council when they first -- when this first came before us that this was best handled administratively and should not be subject to a special permit.

I think this Board has done fantastic work at hearing all of the many applications for special permits, both medical and Adult Use through many years, and has given the City the kind of time to get used to the idea and, you know, each neighborhood to come and explain why they were

different that was needed in order to get used to this being a Retail Use.

But I really do think that it is not a productive us of this Board or the public's time to have us continue to review the special permits when there is such an extensive permitting process in place between the host community agreement's, state regulation, licensing and building Permit Review.

So that's where I am on this. I do think that, you know, official guidance from the Law Department explaining special permits that are in existence today.

And I think in particular let's say somebody has a special permit that says they have to pay into the Traffic Mitigation Fund, with the fund issuance of the CEO, you know, and they haven't -- they haven't yet opened up. My guess is in most cases, that requirement is also going to be in the host community agreement.

But the requirement from the special permit would no longer apply it, as long as they could act -- as long as they met all of the requirements of the zoning and move forward as-of-right. That's my informed guess, based on some of the guidance we've heard tonight, but I think an

actual opinion on that from the Law Department would be helpful to the City Council as they move forward as well.

So I'd like to recommend we approve this, recommend it to the City Council for their adoption and request an opinion from the Law Department on the implementation, and how it would impact current permitees.

So that's my spiel.

Ashley, you can go next.

ASHLEY TAN: Thank you. I'm going to offer actually a slightly different view.

CATHERINE PRESTON CONNOLLY: Okay.

ASHLEY TAN: Before I joined this Board, I probably worked on many -- several dozen, you know, cannabis special permits throughout the Commonwealth.

And I will say, although we shouldn't be looking at this, you know, in comparison with other municipalities, I do think the Cambridge process, whether it's through special permitting, getting the HCA is fairly streamlined, is fairly reasonable, and I think my concern lies mainly in two ways. If we don't have a special permit process, although I think that can be, you know, supplemented with whether it's better guidance from Staff or something in the

administrative process to make sure that one storefront design is really given, you know, more thought, from my experience.

I don't think if it wasn't for the Planning Board process or Zoning Board process and some other [indiscernible] If it wasn't for this process, I think a lot of applicants may not get that much thought into storefront design enhancing the public realm and will frankly pick a cheaper option that can, you know, conform with the state regs.

And that and traffic, although I know traffic is

-- has been less of an issue once more stores open up. I

will say currently I don't have that many retailers opened

up, so I think that's still something to be determined.

And even though I know there's a robust HCA process to make sure that applicants are, you know, operationally and other ways well-functioning, that doesn't go to the Land Use, you know, side of things of whether or not the design generally in traffic is in compliance.

It may be -- and frankly CCC regs. The State Regs currently still envision Planning Board and Zoning Boards of, you know, weighing in.

And so, that's my concern. I generally like the idea of making things easier and more -- even more easy and even more streamlined. And so, I think if it still alleviates some concern, I think -- yeah, having some sort of, like, guidance in the administrative process to make sure applicants do care about the storefront design and traffic I think would be helpful.

CATHERINE PRESTON CONNOLLY: Okay. Thanks, Ashley. Tom?

TOM SIENIEWICZ: Thank you. Ashley beat me to it.

I agree with her. I mean, I've sat on most of the permits,

and first of all, the public comment often is a debate and

an emotion around a fight that really happened at a state

level and a referendum at the outset of this.

And, you know, I think appreciate people's feelings about that, but that fight has happened and been settled. So we spent a lot of our time listening to that rehashing of that debate, which has been settled by the Commonwealth.

So that's one; I won't miss that. I think the traffic issues -- I live near Central Square, and that's two of the four dispensaries are open in my neighborhood.

And I often look to see if there's a lineup or a traffic impact, and I rarely even see one person, let alone a lineup at any of the dispensaries in Central Square. I'm sure they're doing business, but traffic -- at least empirically -- is a nonissue around the dispensaries that I've been observing since they opened in Central Square.

And lastly, I couldn't agree more with Ashley around the impact that state regs have around encouragement to hide the product and hide any reference to marijuana by making the façades opaque. And I think that that's really hard on our city.

And I think that we have -- as a Planning Board

I'm proud of the encouragement and the Design Review and the suggestions that have come from all the Board members on how to make those storefronts better.

Encouraged by Daniel's introduction, where he said "Well, of course the businesspeople want to make the storefronts appealing," and I hope that's true. And I do trust the Design Review of the Staff to encourage that. I think they have reviewed the transcripts and know what the feeling of the Board is.

So I agree with you, Madam Chair. Long-winded

response to say, yeah, I'm ready for this to move to 1 2 administrative processes rather than special permit. 3 CATHERINE PRESTON CONNOLLY: Thank you, Tom. Other comments from Board members? Thoughts on what we 4 5 might do this evening? 6 Hugh? 7 HUGH RUSSELL: So is it too early to put a motion 8 on the floor that we send a favorable recommendation with the comments that have been discussed? 9 10 CATHERINE PRESTON CONNOLLY: So I want to make 11 sure that anyone who wants to give a more detailed view has 12 had a chance to. 13 Lou, you raised your hand. Do you want to add 14 anything to this? 15 LOUIS J. BACCI, JR.: I'll second. CATHERINE PRESTON CONNOLLY: Oh. Okay. 16 17 would just like to say I appreciate Ashley's point of view 18 on this, and Tom accurately, I think, reflects that this Board does care about the design aspect of it. 19 20 I don't want my vehement, you know, cheering on of this ordinance to be seen as an abdication of, you know, 21 22 design entirely. We do care about it.

I guess, I expressed such enthusiasm because I have confidence that our Design Review Staff will continue to encourage, push, use the host community agreement process, use the licensing process and use the Building Permit Review process to provide that guidance.

And I, you know, if the City Council would like there to be some kind of Design Guidelines formally drawn up to say how the City of Cambridge would like you to interpret the state's requirements around, you know, not having the product visible despite -- you know, despite the fact that we have ordinances requiring all kinds of transparency in retail spaces, I think that can only help the business with predictability.

So I think, Hugh, would you like to move that we forward this petition with a favorable recommendation, along with a request that the Law Department provide guidance on existing permits and CDD continue to provide Design Guidance to applicants throughout the City process?

HUGH RUSSELL: Yes. I might make that motion.

CATHERINE PRESTON CONNOLLY: Thank you, Hugh. Do

I have a second?

22 STEVEN A. COHEN: Steve second.

```
1
              CATHERINE PRESTON CONNOLLY: All right. Can I get
2
    a roll call vote.
 3
               DANIEL MESSPLAY: Roll call on that motion: Lou
    Bacci?
 4
5
              LOUIS J. BACCI, JR.: Yes.
 6
               DANIEL MESSPLAY: H Theodore Cohen?
7
              H THEODORE COHEN: Carefully yes.
              DANIEL MESSPLAY: Steve Cohen?
9
               STEVEN A. COHEN: Yes.
               DANIEL MESSPLAY: Tom Sieniewicz?
10
11
               TOM SIENIEWICZ: Yes.
12
               DANIEL MESSPLAY: Hugh Russell?
13
              HUGH RUSSELL: Yes.
14
               DANIEL MESSPLAY: Ashley Tan?
15
              ASHLEY TAN: Yes.
16
               DANIEL MESSPLAY: Catherine Preston Connolly?
17
              CATHERINE PRESTON CONNOLLY: Yes.
18
               [All vote YES]
19
               DANIEL MESSPLAY: That's all members voting in
20
    favor.
21
              CATHERINE PRESTON CONNOLLY: All right. Thank you
22
    very much. Thank you to Staff for your work on this matter,
```

and to all the Board members who have, you know, done the 1 2 work of seeing so many presentations through the process 3 that has given the City comfort that it can proceed 4 administratively. 5 With that, I am going to hand the virtual gavel 6 here over to my colleague Hugh and sign off for the next 7 General Business discussion. 9 (7:21 p.m.)Sitting Members: Louis J. Bacci, Jr., Steven A. Cohen, H 10 11 Theodore Cohen, Hugh Russell, Tom 12 Sieniewicz, and Ashley Tan 13 Okay. I'm Hugh Russell. HUGH RUSSELL: I'll be 14 acting as Chair for this discussion on the Board of Zoning 15 Appeal cases to be heard on June 22. As a matter of General Business, our action is to 16 decide whether or not make a recommendation to the BZA on 17 this case. The Board has historically discussed BZA cases 18 associated with telecommunication uses [indiscernible] 19 20 Planning Board special permits were located in a Historic 21 Overlay District.

So going to the query on the January 2 Agenda, 10

22

Page 84

Canal Park, BZA Case 220600 and Case 225273, the case by T-
1
 2
    Mobile and AT&T, and Case 51 Brattle Street, BZA Case
 3
     231274, and 120 Vassar Street -- BZA Case 223702, both of
 4
     those are by T-Mobile.
 5
               I understand representatives of the applicants in
 6
    each case are present. We've also received thoughtful
7
    written comment from Suzannah Bigolin, who did the planning
     on these cases.
 9
               Do Board members have questions for the
     representatives or for the CDD Staff? I see no hands are
10
11
    up. Is the Board interested in hearing from Suzannah
12
    Bigolin, or do we simply want to have a motion to forward
13
     Suzannah's recommendations to the BZA as our recommendation?
14
               H THEODORE COHEN: So moved.
15
               LOUIS J. BACCI, JR.: Yes, forward.
               HUGH RUSSELL: Okay. Ted has moved and Lou has
16
17
     seconded. Could we have a roll call vote?
18
               DANIEL MESSPLAY: Roll call on that motion to
     forward those comments: Lou Bacci?
19
20
               LOUIS J. BACCI, JR.: Yes.
21
               DANIEL MESSPLAY: H Theodore Cohen?
22
              H THEODORE COHEN: Yes.
```

```
DANIEL MESSPLAY: Steve Cohen?
 1
 2
               STEVEN A. COHEN: Yes.
               DANIEL MESSPLAY: Tom Sieniewicz?
 3
 4
               TOM SIENIEWICZ: Yes.
 5
               DANIEL MESSPLAY: Ashley Tan?
               ASHLEY TAN: Yes.
 6
 7
               DANIEL MESSPLAY: And Hugh Russell?
               HUGH RUSSELL: Yes.
 9
               [All vote YES]
10
               DANIEL MESSPLAY: That's all members voting in
11
     favor.
               HUGH RUSSELL: I believe that concludes the
12
13
    business on our agenda. Are there additional comments from
14
    Staff?
15
               DANIEL MESSPLAY: No additional comments from
    Staff at this time.
16
17
               HUGH RUSSELL: Do Board members have anything to
18
    add before we adjourn?
19
               [Pause]
20
               Then the meeting is adjourned.
21
               COLLECTIVE: Thank you, everyone. Goodnight.
22
     [08:22 p.m. End of proceedings.]
